**MSD Notice of Construction Completion
ARCHER STREET CSO IMPROVEMENT, CSO 86
In the City of Cincinnati, Hamilton County, Ohio**

Cincinnati, October 27, 2006. Managed by the Metropolitan Sewer District of Greater Cincinnati (MSD), construction for the Archer Street, CSO 86 Improvement was completed the week of October 23rd by J.T. Lohrer Construction Company.

The purpose of the project was to provide High Water/Dry Weather protection for the existing combined sewer system. The project consisted of installing approximately 175 feet of 8" gravity sewer and relocating the existing interceptor manhole. In addition, the outfall structure at Duck Creek was repaired and an access pad was constructed off of Eastern Avenue near the bus turn-around. This was done to improve the safety of crews maintaining CSO 86. The construction cost of the project was \$92,000.

This project is part of MSD's ongoing Capital Improvement Program (CIP), which is focused on continually updating and improving the operation of MSD's wastewater collection and treatment systems.

Every day, the Metropolitan Sewer District of Greater Cincinnati (MSD) manages the effective collection and treatment of more than 200 million gallons of wastewater and actively maintains 3,000 miles of sanitary and combined sewers that run through the 49 municipalities and townships of Hamilton County. Owned by Hamilton County and operated by the City of Cincinnati, MSD is committed to continually maintaining and improving its wastewater collection and treatment systems for the betterment of both public and environmental health.
